10 REASONS TO TRY IBT'S MANY INDUSTRIAL SERVICES

Reason #1—Get longer life out of your equipment with Industrial Maintenance Services

Our **Industrial Maintenance** team can analyze, fix, maintain, and optimize your machine performance to eliminate imbalances and misalignment—reducing wear and tear, and giving you longer equipment life. We use:

- Vibration analysis
- Laser shaft alignment
- Infrared scanning
- Dynamic balancing of rotating equipment

You can also extend equipment life with our **predictive maintenance program**.

Reason #2—Prevent injuries and accidents with comprehensive Safety Services

Our **Industrial Maintenance** team can analyze, fix, maintain, and optimize your machine performance to eliminate imbalances and misalignment—reducing wear and tear, and giving you longer equipment life. We use:

- Vibration analysis
- Laser shaft alignment
- Infrared scanning
- Dynamic balancing of rotating equipment

You can also extend equipment life with our **predictive maintenance program**.

Reason #3—Reduce downtime from motor failures with Motors and Electrical

It's easier to stay up and running when you've got the right motor for the job—whether it's washdown, explosion-proof, light duty, inverter-rated, or farm duty. IBT is one of the nation's largest suppliers of industrial electric motors and supplies:

- AC and DC drives
- 268,000 SKU's
- 590 manufacturers
- Master Distributors for Siemens, Baldor, Marathon
- Plant audits for Schwan's corporate-wide standardization initiative

Reason #4—Increase productivity with better Bearings and Power Transmission

Using the right bearings, lubrication, and power transmission can help your entire operation run more smoothly and efficiently. IBT has specialized in **Bearings and Mechanical Power Transmission** since 1949 with adjustable speed drives, conveyor chain, ball bearings, roller bearings, and super precision bearings.

- 500,000 SKU's available
- 1,100 suppliers

Reason #5—Decrease hose and belt failures with custom-fitted Industrial Rubber Products

Industrial Rubber Products specialists can analyze your failure and help you select a better hose or belting assembly for your specific application.

- Lightweight belt—endless, food-grade, high temp, oil-resistant
- Hose—chemical, water, steam, air, ducting, bulk handling, fire and mill
- Onsite vulcanization of lightweight belting—is also available

Reason #6—Stay in compliance with Training

Our experienced **Training** staff helps you stay in compliance with maintenance and safety requirements—using hands-on, classroom, video, web, or on-the-job training customized to your facility and equipment.

- Electrical training
- Safety training
- Power transmission training
- Fluid power, pneumatics, and hydraulics training
- Bearings and power transmission maintenance and repair
- Material handling training

Reason #7—Reduce work-related injuries with better Material Handling and Automation

Industrial manipulators can reduce the back injuries and strain caused by highly repetitive, heavy physical movements that damage joints and tendons over time.

- Manipulators—palletizing, depalletizing, packaging, bag dumping
- Conveyors—zero-pressure accumulation, unit handling, pallet handling, drag conveyors, screw conveyors
- Vacuum lifting systems

Reason #8—Increase your operation's efficiencies with Fluid Power services

Hydraulic and pneumatic specialists from our **Fluid Power** team can ensure that your system is operating at its optimal speed and output.

- Full line fluid power provider
- Air tool service and repair
- Hoses and fittings

Reason #9—Prevent bearing failures with Lubrication services

The right amount of lubrication—delivered at the right time—can actually prevent bearing failures. Our **Lubrication** team delivers:

- Lubrication equipment and bearing repair
- Complete line of oils, greases, food-grade, and synthetic lubes
- Viscous fluid delivery systems
- Grease and oil centralized lubrication systems

Reason #10—Get better control of your inventory of General Industrial Supplies

New industrial vending systems reduce loss and theft—and maintain better control of your **General Industrial Supplies**. We offer online purchasing of over 1 million SKU's, including:

- Cutting tools
- Fasteners
- Filters
- Paints and coatings
- Hand and power tools
- Abrasives
- General MRO products
- VMI capabilities
